

NOTICE

Mailhost Server Upgradation

Computer Centre is upgrading the operating system and applications of Mailhost server for fixing security vulnerabilities. Users are hereby informed that Mailhost Server will be shut down from 1800 hours to 2200 hours on 20th March 2017, for the Mailhost server upgradation. All the incoming mails during this period will be queued and will be delivered once the server is up, after upgrade. No mails will be lost.

Users are requested to co - operate and inconvenience caused is regretted.
